ACE aims for the skies, so we can give you the stars!

Profile of ACE

ACE treats people as extensions of its brand, and not as mere resources. We offer efficient and premium quality services in a concerted effort to build long-term relationships. Possessing an acute understanding of the construction sector and its inherent problems gives us the advantage of being able to provide recruitment solutions that meet your needs and match job requirements.

By providing well-known companies with outstanding staff members and management, we have built a reputation for being perceptive and progressive in our business. ACE was conceptualized and created in 2003, and from

inception itself, has operated at a high success rate with its intuitive placement of competent staff at the appropriate levels. With a resourceful management team and well-organised consultants, the company now spans a gamut of capabilities, and caters to various construction companies around the world.

ACE uses an efficient placement model to determine your needs and match them with professionals of high calibre. With a highly trained team and a well-defined process in place, we ensure that you receive the best possible options for your requirements.

Trade Testing

ACE provides trade test facility for the skilled and semi skilled workers in a government approved technical institute to ensure the genuineness of the credentials of the workers and their skills.

Trade testing centers are located in different parts of the country and cover all major trades.

Specialization

ACE offers recruitment solutions for entry level till top management positions within the construction industry. Some of the positions that we specialize in sourcing for you are:

- Carpenters (Shuttering / Furniture)
- Electricians (House Building / Industrial)
- Welders (Tig / Mig / Arc)
- Heavy / Light Vehicle Drivers.
- AC Technicians (Windows / Split / Central)
- Civil Foreman
- Electrical Engineer
- HVAC Engineers (Mechanical)
- Civil / Mechanical Draftsman
- Land Surveyors
- Masons (Tiles / Block Mason)
- Plumbers
- Labourers / Helpers
- Crane / Excavator / Loader Operators.
- Duct Foreman
- Civil Engineers
- Mechanical Engineer
- Project Manager (Civil)
- Horticulturist
- Quantity Surveyors

Recruitment Process

ACE follows a disciplined and well planned process for placing candidates with employers.

- On being contacted with requirements, the initial mode of screening and selecting candidates begins.
- Sourced candidates are then interviewed by trained consultants who score them on parameters such as job knowledge, overall personality, communication skills, prior experience and education, amongst others.
- The resumes of the selected candidates are forwarded to you, and you may choose to conduct telephonic interviews with those that you find promising. There is also an option for you to meet the potential candidate in an interview on ACE premises.
- On final selection of a candidate, company professionals compile a report of two references, from a Senior Department Manager or HR Manager and send this to you to help finalise the decision.

ACE provides a unique touch by offering further services to you and to the candidate even after the selection and hiring process is over. Paper work such as emigration checks, medical certifications, passport and travel bookings are undertaken by the company. Furthermore, candidates who have been hired will also receive training for country-specific etiquette and social behaviour if needed.

The ACE Edge

We pride ourselves on our reputation and professionalism. With a strong sense of confidence inspired by our rigorous selection and screening process, we offer a guarantee that is unmatched. In the unlikely event of an ACE candidate resigning or being declared unfit for the position within three months of joining, we are committed to finding a replacement applicant at no extra cost. We understand the need for efficiency and a smooth workflow in the hospitality industry, and honour your trust and brand.
